

Customized Executive and Management Consulting Services

“What lies behind us and what lies before us are tiny matters compared to what lies within us.”

Oliver Wendell Holmes

In addition to its program offerings, Stop At Nothing offers four areas of customized consulting services. In different ways, these programs seek to dramatically accelerate executive leadership development by:

- Deepening awareness of the leader’s strengths, weaknesses and impact on others
- Adjusting interpersonal and communications skills to match the needs of the organization
- Addressing real-life business challenges

“The uniqueness and effectiveness of the Stop At Nothing programs are based on the creation of environments where participants can explore their personal leadership abilities at a depth never before achieved.”

Kevin Heineman

VP, Software Development
Fortune 100 Computer and
Office Equipment Company

The Executive Leadership Development Program (ELDP)

The ELDP is designed for the leader who desires a one-on-one approach, providing in-depth support to increase personal awareness and drive behavioral changes.

The process is customized for each leader, but typically starts with information gathering through interviews with colleagues, bosses and subordinates, and review of 360° assessments or existing feedback reports. Additionally, professional diagnostic tools are administered, including the Myers-Briggs Type Indicator, FIRO-B, DISC and/or Hogan Personality Inventory. These sources provide a rich database of behavioral feedback and perceptions.

The data is compiled in a report and reviewed in-depth with the leader as part of three intensive days of one-on-one coaching.

The coaching focuses on helping the leader gain awareness of his or her core strengths and weaknesses and the impact of those behaviors on others.

With the foundation of deep awareness, the consultant guides the leader through an action-planning process that drives commitment to behavioral changes. Follow-up mentoring and coaching sessions are scheduled as determined by the coach and participant.

Executive Coaching

Stop At Nothing Executive Coaching services allow leaders to target key behaviors that will enhance their leadership skills. The focus is customized to meet each leader’s needs, but often include the following areas:

- Leading organizational change in a meaningful and lasting way
- Resolving interpersonal or team conflicts
- Deepening personal awareness of communication and interpersonal behavior impacts
- Creating personal feedback loops to keep behavior changes on track

“People grow through experience if they meet life honestly and courageously. This is how character is built.”

Eleanor Roosevelt

The Leadership Retreat

The Leadership Retreat was formed for leaders truly interested in deepening their strong commitments to leadership growth on an individual basis.

Prior to attending the retreat, executives must have completed the High Impact Leadership Seminar-1 (HILS-1), and preferably the High Impact Leadership Seminar-2 (HILS-2). Each leader spends five days working one-on-one with one of the Stop At Nothing managing partners. The five days are completely customized to guide the leader through the journey of understanding his or her personal truths and integrating the learnings into their professional and personal development.

Consulting Services

Stop At Nothing can provide additional management and organizational consulting services that address broader organizational dynamics and systems needs, including projects that:

- Implement feedback loops to sustain a permanent learning environment
- Align feedback systems with performance appraisals
- Customize 360° feedback systems to maximize effectiveness
